PROFESSIONAL EXPERIENCE

Trigal Media

Sep 2025 - Present

Senior Web Developer Lead

Key responsibilities: I am responsible for leading web development and AI-assisted digital product initiatives for clients across legal, healthcare, education, and small business sectors. My role includes managing developers and designers, planning technical execution, building websites and applications with WordPress, Laravel, React, and Next.js, and guiding the team in the use of AI tools to improve productivity, delivery speed, and implementation quality.

Core stack: React, Astro, WordPress, TypeScript, Tailwind, Laravel, Next.js, AI-assisted development tools.

Brand Builders Sportsbook

May 2024 - Aug 2025

Senior Web Developer Lead

Key responsibilities: I was responsible for leading the front-end and web development efforts for multiple high-traffic sportsbook, affiliate, and marketing platforms. My role included managing a cross-functional team, maintaining and improving WordPress and React-based websites, coordinating with design, marketing, content, and business stakeholders, and ensuring that all web properties were scalable, responsive, performant, and aligned with brand and conversion goals.

Core stack: React, Astro, WordPress, TypeScript, Tailwind, Strapi, Remix, frontend architecture, A/B testing.

Prevent Security / BetUS Sportsbook

Mar 2023 - May 2024

Senior Front End Developer - WordPress

Key responsibilities: I was responsible for developing, maintaining, and improving high-traffic WordPress websites and frontend interfaces for sportsbook, editorial, and marketing platforms. My role included building custom WordPress themes, creating reusable frontend components, collaborating with design and content teams, supporting Laravel and React-based features, reviewing code, mentoring developers, and ensuring responsive, scalable, and production-ready implementations.

Core stack: WordPress, PHP, Laravel, JavaScript, React, Advanced CSS.

Assemble Studio

Aug 2021 - Aug 2022

Front End Developer - Freelance

Key responsibilities: I was responsible for delivering frontend development, HTML email campaigns, landing pages, banners, and website assets for pharmaceutical and marketing clients. My role included translating design files into responsive digital experiences, collaborating with designers and project teams, creating reusable templates and components, and ensuring brand consistency, usability, and compliance with client requirements.

Core stack: HTML, CSS, JavaScript, Figma, Adobe XD, Sketch, Balsamiq, Node.js tooling, email development.

Accenture

Jul 2020 - Jul 2021

Web Developer Senior Analyst

Key responsibilities: I was responsible for developing and maintaining enterprise-level email campaigns, landing pages, websites, and digital marketing assets within a high-volume marketing technology environment. My role included working with Salesforce Marketing Cloud, AMPscript, dynamic content, reusable components, QA processes, internal tooling, and cross-functional teams to deliver reliable, scalable, and brand-compliant digital communications for major clients.

Core stack: Salesforce Marketing Cloud, AMPscript, HTML email, JavaScript, CSS, Node.js, QA tooling.

Business Solutions / JazzSports Sportsbook

Nov 2017 - Dec 2019

Technical Lead Manager

Key responsibilities: I was responsible for leading frontend, design, and marketing production teams across sportsbook, casino, email, and commercial web initiatives. My role included coordinating daily development work, reviewing frontend implementation quality, improving team workflows, mentoring developers and designers, introducing WordPress for SEO-driven websites, and ensuring that digital assets were delivered efficiently, consistently, and aligned with business objectives.

Core stack: WordPress, PHP, Advanced CSS, JavaScript, email platforms, SEO-focused marketing websites.

Prime Ideas / MyBookie

Feb 2016 - Oct 2017

Technical Lead Front End

Key responsibilities: I was responsible for leading frontend development for sportsbook, marketing, and customer-facing web platforms. My role included building and maintaining responsive interfaces, supporting custom platform features and payment-related user flows, defining reusable frontend structures, collaborating with designers and stakeholders, and mentoring junior developers to improve code quality and frontend standards.

Core stack: WordPress, PHP, JavaScript, Advanced CSS, sportsbook UI, marketing platforms.

Double Digit

Sep 2015 - Feb 2016

Front End and Email Developer

Key responsibilities: I was responsible for implementing email campaigns, landing pages, banners, and client-facing websites in a fast-paced agency environment. My role included converting creative designs into production-ready HTML, CSS, and JavaScript assets, ensuring compatibility across browsers and email clients, collaborating with design and project teams, and delivering multiple digital marketing assets under tight deadlines.

Core stack: HTML, CSS, JavaScript, email development, landing pages, banners, agency production workflows.

Experian Marketing Services

Aug 2012 - Oct 2015

Front End and Email Developer

Key responsibilities: I was responsible for developing and maintaining large-scale email and web campaigns for enterprise clients. My role included building reusable frontend and email components, ensuring cross-client compatibility, collaborating with designers and stakeholders, supporting template systems, and helping deliver consistent, maintainable, and high-volume digital communications across multiple brands and campaigns.

Core stack: HTML email, CSS, JavaScript, frontend components, template systems, enterprise campaign production.

Travel availability: U.S. tourist visa and Canada eTA.
